## Congratulations, Class of 2019!

# Seniors compare history to Hollywood

A project that added equal parts stress and enjoyment to the last semester of high school for some seniors was History versus Hollywood.

H vs H is a huge project done by seniors in College English. The teacher of the class, Sherri Perneswaran, or Mrs. P, considers H vs H a culminating project, incorporating skills that seniors have learned for the last four years.

Students must compare a movie that claims to be based upon history with the actual history. The seniors research and then use the evidence to create a research paper script, complete with outline, citations, and works cited page.

They compare their movies' portrayal of three

historical events and three historical elements with history. They also analyze three aspects of cinematography. Students can dress up like characters in the movie if they like.

The seniors use Google slide shows to enhance the oral presentation of their research. Photos from real life as well as video clips must be incorporated into the slide shows. The time requirement is 25-30 minutes per presentation.

Mrs. P graded the seniors on preparation, presentation, and paperwork. They also get to evaluate each other.

Not only do the students get to choose the movies they want to analyze, but they also get to pick their presentation dates. Presentations occurred

on Thursdays and Fridays from March through May this year.

Brianna Kibby said, "I chose the movie *Coach Carter* because it is about basketball, and I have always enjoyed basketball."

Wiar Wia said, "I chose the movie *Red Tails*. It is about Tuskegee airmen, one of the most influential factors in desegregating the armed forces."

Abby Foster said, "I chose the *Conjuring 2* because I was very interested in the story of the Warrens until I started researching them and found out that they are not that great of people, in my opinion."

Hanna Francksen-small said, "I chose the movie *Gracie* because it wasn't on the list so it was something

different.

Robert Sadoski said, "I chose the movie *Foxcatcher*. It is about two brothers, Dave Schultz and Mark Schultz, who wrestled. The movie really shows all levels of wrestling mentally and physically to the extreme. It also shows the bond between brothers."

Anna Mae Lee said, "My History versus Hollywood project was about the *Titanic* because I have watched it millions of times so I thought it would be easy. The *Titanic* is about the sinking of the big ship with an added love story."

Dalton Glawe, who analyzed the *Amityville Horror*, loved the project, explaining, "History vs Hollywood was the highlight

of my year."

Mrs. P. was thrilled with the presentations this year: "So many seniors worked so hard! It was fun to watch!"

# Three long-time LCHS teachers retire

Three teachers will retire from the high school this year. They have a combined total of 71 years of service to the students of LCHS.

The teachers are Colleen Bortscheller, Joann Johnson, and Curt Ohrlund.

Colleen Bortscheller has taught Pre-calculus and Applied Calculus at LCHS for 20 years. She also taught Algebra II, Algebra III, and Programming a few years.

One of this math teacher's favorite memories is a time she showed off her throwing arm. She explained, "It could be dangerous to fall asleep in my class. One year a student in the SE corner of my classroom fell asleep. I was standing by the board in the NW corner. I flicked a dry erase marker at the student to wake him up. The marker hit him dead center on top of his head. The softball coach would have been so proud!"

Bortscheller will especially miss teaching Precalculus and Applied Calculus: "Over a two year period I could watch my students' math knowledge, confidence, and critical thinking skills increase. I loved it when a student would make a mathematical observation or connection that I had never thought of before."

"I also loved talking to our graduates after they returned from college. I always asked them what I should have done

differently. I got a few very good suggestions, but they usually reported that they were well prepared for their college math classes."

However, Bortscheller "will not miss in-service days or 7 AM meetings."

Along with her husband, Bortscheller plans to spend lots of time traveling, especially to warmer climates and throughout the United States. She explained, "We are avid bicyclists and look forward to riding various bike trails."

Joann Johnson has taught at LCS since 1998. She started with 8th grade science, then added 8th grade math for a total of 12 years in the middle school. She moved to the high school nine years ago, where she has taught Food & Nutrition, 21st Century Foods, Culinary Arts, Child Development, and Single Living.

Johnson said she will miss the people of LCHS: "I have a lot of great memories—both with students and staff that I've enjoyed working with."

Her favorite type of class was when kids did experiments. She explained, "I love doing labs (both science & foods), and it was always exciting to see how things turned out."

On the other hand, Johnson will definitely not miss having to do laundry or buy groceries for class. She also is looking forward to NOT spending her weekends getting caught up on

school work.

During her new-found free time, Johnson hopes to spend more time with her family. She said, "I plan to see my four grandchildren often. I'm hoping my husband and I will travel some, and I plan to volunteer various places."

Curt Ohrlund has directed band at LCHS for 30 years. Included in his job are marching band, concert band, jazz band, solo & ensemble contests, large group contests, and a trip every fourth summer. He has also done the sound system for musicals.

Ohrlund's favorite memories come from all the summer band trips he has taken with students. They have traveled

to California and Colorado, as well as to Florida multiple times.

Ohrlund will miss most "the students and the camaraderie amongst the faculty."

However, he said he will not miss being on a strict schedule. He said, "I am looking forward to not having a bell tell me what I need to do."

Ohrlund has many plans for retirement. But first, he said, "I'm going to do whatever the heck I want for awhile. I hope to golf a lot more, work on my '37 Chevy, work on decluttering rooms at home, remodel two bathrooms, and make sure I have supper ready every night for my wife when she gets home from school!"
