Angela Catton	At Large	2015	2023

Lisa Boehm, Secretary, appointed November 2019, for one year.

Kim Clarey, Treasurer, appointed November 2019, for one year.

Directors are elected in November of odd-numbered years from five director districts, with two at-large directors. Terms are for four years.

SPECIAL EDUCATION 2019-2020

During the 2019-2020 school year, the special education program comprised of 19.0 FTE teachers. Our teachers served 260 students. Four of our special education students were served in other school districts or facilities on a tuition-out basis. Below, you will see a historical trend of LCS special education students, by weighting level. Special education numbers have been fairly consistent over the past four years.

	2013	2014	2015	2016	2017	2018	2019	2019
Level 1	144	145	136	144	147	130	129	109
Level 2	32	46	46	52	80	83	102	106
Level 3	35	37	50	45	39	48	50	45
Total	211	228	232	241	266	261	281	260

The most predominant type of disability for which special services are provided is learning disabilities. Services are also provided for students with mental disabilities, behavioral disorders, pre-school IEPs, and other special needs. Life Skills Center and Goodwill Industries were utilized to help serve our students by providing work experiences, living skills opportunities, and added social development.

District special education programming is determined on an annual basis and programming is based upon the IEP needs of the students served. Attempts are continually made to educate students in the least restrictive environment. During the 2019-2020 school year, special education teachers continued the use of the co-teaching model at the secondary level to further increase the amount of time students are served in the regular educational environment. For students with behavior goals, the use of Rage to Reason instructional strategies were utilized. Additionally, we had great success at the elementary level providing Tier I instruction for students who were being integrated. Because of these efforts, numerous students were moved to support services only and some exited from special education completely. This is all due to effective collaboration and communication between administrators, teachers, and parents.

TITLE I PROGRAM 2019-2020

Le Mars Community Schools continues to provide remedial reading to those identified most in need of these essential services. Title I has proven to be a good opportunity for identified students to master improved reading skills.

Through an assessment at grades K-5, it is determined which children need to improve reading skills. Priorities are established to serve as guidelines for student selection. Children are provided additional Title I instruction based on who has the greatest need. Through the use of FAST benchmarks, students in 6th grade are placed into Title based on need. Students in grades 7-8 are identified for programming based on the use of ISASP data and benchmark testing using easyCBM.

During the 2019-2020 school year, approximately 74 students in grades 1-5 and 62 students in grades 6-8 in the LeMars Community Schools received supplemental reading instruction.

The 3.625 FTE teachers are assigned to the Title I program. Clark and Franklin Elementary buildings and the Middle School building had designated Title I programming.

A meeting is held each fall for parents, by Title I teachers and building principals, to receive input on the Title I program. Title I teachers made regular reports to parents about their children and their progress. Parents are invited in at any time for special conferences with the Title I teachers and were urged to keep abreast of their child's progress.

At the elementary level, the district continued to implement the Reading Recovery Program. Reading Recovery is designed to be of benefit to high risk first graders with intense one-on-one instruction. The district implemented SIPPS, Systematic Instruction in Phonological Awareness, Phonics, and Sight Words, in all buildings. SIPPS helps new and struggling readers build the skills and confidence they need to gain reading fluency and comprehension. At the Middle School, Second Chance Reading (SCR) is used to provide supplemental support to students who are reading below grade level through a focus on comprehension skills, vocabulary development and fluency in both fiction and non-fiction textual materials.

TALENTED AND GIFTED 2019-2020

The Le Mars TAG program is known as "Challenge." The program is staffed by Jakki Tettinger, teacher 6-12, and Kathleen Wingert, teacher K-5. The LeMars Community School District program provides enrichment activities and curriculum enhancement for the students. 101 students were identified as talented and gifted.

The "Challenge" program in the LeMars Community School District is based on the philosophy that each child deserves an education especially suited for that child. Each student participating in the program has the opportunity to examine and define his/her own areas of giftedness. Identified students have the opportunity to increase his/her knowledge in a variety of subject areas. The students are provided the tools necessary to develop critical thinking, decision making, problem solving skills, and creativity.

Students in grades 3-5 were identified through teacher recommendations and achievement test scores. These same criteria along with the Cognitive Abilities Test were used to identify middle school students.

District components for the Challenge program in the middle school include teaching advanced research skills, developing effective communication and listening skills, developing the students' individual areas of creativity, extended curriculum enrichment in math, and developing logical reasoning and problem solving. Elementary activities include producing puppet shows, creative writing, learning a foreign language, researching topics of interest, presenting research, learning to be financially responsible with money, and problem solving/logic activities.

Activities at the middle school and high school level usually include participation in AEA sponsored academic contests, Quiz Bowl, curriculum extensions, and concurrent enrollment courses. Middle school students participate in the National History Day competition at both the area, state, and national levels.

ELEMENTARY 2019-2020

An effort is made to achieve high standards in the LeMars Elementary Schools. This year the elementary staff has focused on the following areas:

Professional Development -- The following curricular areas are being addressed by the C.I.A. Team through Professional Development:

- Implementation of Eureka Math Foundational Skills Assessment
- Common Formative math assessments
- Professional development focused on CCC
- Implementation of CCC IDR

Home/School Communication -- The following have been implemented to improve home/school communication:

- Classroom Newsletter: Paper and Electronic
- Use of Applications such as “Remind” and “SeeSaw”
- District Newsletter (“Bulldog Highlights”)
- Power School
- Title I Newsletters and Parent Meeting
- Parent Teacher Conferences—Nearly 100% of students had a parent attend conferences
- Parents attended various classroom projects/events throughout the year (Beginning of the year parent meetings, States Parade, class plays)

Parent/Community Volunteer Program -- Parent and community volunteers assisted students and teachers in each of the elementary buildings. Big Brothers/Big Sisters continue to provide support to individual students.

Elementary P.T.O. -- Some of the activities promoted by the P.T.O. included:

- Birthday Breakfast
- Book Fair
- Recognition of the staff during “American Education Week” and “Teacher Appreciation Week”
- Box Tops and Coke Rewards were collected as an ongoing fundraiser

MIDDLE SCHOOL 2019-2020

The middle school had another super successful school year. Academic and behavioral expectations for students were high and the staff performed well. We feel strongly that LCMS continues to be a safe and positive place for our community's middle school students to receive a solid education. LCMS' daily average attendance was at 95.0% and the overall school climate, as measured by building harassment data, 8th grade bullying survey, and the Iowa Youth Survey, was positive yet again.

The middle school saw a large increase in the number of students this past year. Enrollment was 530 students bolstered by a 7th grade class of 195. To keep core class sizes down, the middle school implemented a nine period day in order to spread out the high numbers of students. LCMS also started the school day at 8:18 again to accommodate that extra period and make all periods 42 minutes in length. The changes were effective and the earlier start time was not a significant change for the students as most students are in the building by 8:05 a.m. on a regular basis.

LCMS professional development activities focused on two things – using achievement data (formative and summative) to guide instruction and improving the ways that we intervene for students if they fall behind.

Science and Social Studies have new state curriculum to implement and that is a process that takes 2-4 years. Literacy was in the third year of a curriculum called “My Perspectives” which is the final implementation of the Iowa Core Literacy curriculum.

Grade level teaching teams continued to meet to identify ways to help our students. Several teachers were also trained in mental health “first-aid” through a state initiative that will help in training all of our staff.

HIGH SCHOOL 2019-2020

The 2019-20 school year was very productive. During in-service time, teachers continued to work on aligning our curriculum to the Iowa Core.

Concurrent courses (34) were very popular, with 256 students taking advantage. LCHS and post-secondary schools are working closely together to make sure this is an added benefit for our students. We had 2 students take advantage of the Great Start Classes through Western Iowa Tech.

Career and technical education instructors continue to work and update their “Programs of Study” for each of their areas. The programs consist of linking the CTE program with a community college, having standards and competencies, assessments for the standards approved by the community college and advisory committee, three sequential courses for each area, and share the program with students and parents.

The EMT class, in cooperation with the Le Mars Ambulance Service, was popular again this year. This class certified ten students to become EMT’s. We also had four students take advantage of our Healthcare ECE program. Students did internships at the hospital. In this partnership, the students get to see all aspects of the industry to help them determine career pathways. We are working on developing more of these experiences for our students.

Fifty-one students attended the Alternative High School program. Of these 51, 18 students graduated from LCAHS, one student went to placement, six dropped out, one returned to LCHS at semester time, one plans on returning to LCHS in the fall, one plans on transferring back to Hawaii, and 23 will be returning next year. In addition, 19 LCHS students utilized resources from the program for a total of 37 credits. This consists of taking classes or working on the Edmentum program.
